

MLTSS is Complex. Managing it doesn't have to be.

Achieve better member outcomes, more accurate reimbursements, and enhanced financial performance with QCSS Health's MLTSS Performance Hub, specially designed to simplify and improve all aspects of running a successful MLTSS program.

How does it work?

QCSS's suite of solutions address the root causes of inaccurate assessments, inequitable allocation of care, and difficulty in financial modeling, automatically, before they lead to suboptimal results.

Current Processes

Inaccurate Assessments

Small errors and biases occur throughout the extensive assessment process.

Inequitable Care Allocation

Assessments are misaligned over time leading to an over or under delivery of care to patients.

Manual Financial Modeling

Financial modeling is completed manually without incorporating real-time data.

With QCSS Health

Accurate Assessments

Errors are identified in real-time, without manual intervention and can be reviewed and fixed.

Equitable Care Allocation

Personalized care is delivered based on more accurate assessments.

Predictive Financial Modeling

Member data is incorporated leading to precise projections and reimbursements.

QCSS Health's MLTSS Performance Hub doesn't merely work around these issues, it effortlessly offers resolutions in real-time, delivering better outcomes for all.

40%

Potential inconsistencies are resolved for more accurate reimbursement.

4X

ROI when using QCSS Health compared to prior processes.

33%

Potential authorization errors are prevented for equitable care delivery.

MLTSS Performance Hub

Precision in Care. Excellence in Performance

Assessment Editor: Improve data integrity, unlock submission success

Complete assessments in an intuitive platform which simplifies team collaboration, creates a single source of truth across systems, and eliminates data quality errors.

Assessment Analyzer: Accurate assessments every time

Clinically consistent evaluations that enhance accuracy, ensure appropriate reimbursement, and optimizes member care by intelligently identifying inconsistencies.

Time-Tasking Validator: Optimized utilization management

A dynamic application that aligns service utilization with clinical guidelines by flagging discrepancies, estimating service costs, and managing assessor performance.

Financial Forecaster: Confidently forecast & analyze financial results

Designed to optimize financial and risk-modeling performance, align time-tasking with patient needs, and adapt to regulatory changes, balancing care delivery and financial results.

“Adding QCSS Health was a game-changer, streamlining processes in real-time, improving financial outcomes, and thrilling employees with its ease-of-use, all while freeing up time to better deliver care.”

-Keith Curtis, Program Director of MLTC / D-SNP

Take the first step towards streamlining your MLTSS program with QCSS Health’s MLTSS Performance Hub.
